ProGuard Product Data

ProGuard RV and Marine Antifreeze Product Data Sheet

ProGuard RV and Marine Antifreeze is formulated for potable (drinking) water and plumbing systems to winterize for winter storage.

ProGuard Marine Antifreeze can be ordered as a concentrate or 50/50.

ProGuard RV Antifreeze can be ordered as a concentrate, -50 burst or as -100 burst.

Both products can be used to winterize boats, recreational vehicles, vacation homes, swimming pools and a variety of other winter storage applications. Both are safe for brass, metal, copper and plastic pipes (except acetate). All the ingredients are considered by the Food and Drug Administration as GRAS (Generally Regarded as Safe).

Note: These products CANNOT be used as a heat transfer fluid and should only be used in winter storage applications.
